

FreeZone 6 Liter -84C Console Freeze Dryers with Stoppering Tray Dryers

FreeZone 6 Liter Console Freeze Dryers with Stoppering Tray Dryers are designed for lyophilizing moderate to large loads and stoppering vials or serum bottles under vacuum. The console features a front viewing window and interior space for a vacuum pump (sold separately).

The console's upright stainless steel collector coil holds 6 liters of ice before defrosting. Two 1/3 hp HCFC/CFC-free refrigeration systems cool the collector to -84° C (-119° F), suitable for low eutectic point samples including acetonitrile.

The Stoppering Tray Dryer features three 16.5 x 12" processing shelves. A single 1 hp HCFC/CFC-free refrigeration system and 1000 watt electric heater cool and heat the fluid medium circulating through channels in the shelves.
