Protector Downdraft Powder Stations

Protector Downdraft Powder Stations keep users safe by containing fingerprint powders during processing. The open-sided, open-top workstation provides unrestricted operator movement and accommodates oversized evidence.

Available in 2' and 3' widths, two or more workstations may be placed side-by-side to achieve an unlimited number of width combinations. An optional Transition Connecto mounts between two downdraft powder hoods for a secure fit and continuous work surface.

These downdraft enclosures keep users safe by containing powders during fingerprint processing.
