Protector Evidence Drying Cabinets with Washdown

The durable, stainless steel-lined Protector Evidence Drying Cabinet provides a secure ventilated area to dry evidence such as clothing and bedding. The cabinet's HEPA and carbon filtered exhaust protects personnel from exposure to biohazards while eliminating nuisance odors. The key-activated ultraviolet light provides secondary disinfection of the Evidence Drying Cabinet's interior between cases to prevent cross contamination, ensuring integrity of samples for DNA testing. The lockable cabinet maintains the chain of custody.

These durable, stainless steel-lined cabinets provide a secure ventilated area to dry evidence such as clothing and bedding. Evidence drying cabinets are available in 3', 4' and 5' floor-mounted models and 3' benchtop models. Washdown helps decontaminate cabinet.
